## Roads2HyCom launches new website on State of the Art in Hydrogen and Fuel Cell technologies

**Roads2HyCom has been developing a comprehensive analysis of the State of the Art in Hydrogen and Fuel Cell technologies, covering diverse topics from the technologies behind the production and distribution of Hydrogen as a fuel, to the various types of Fuel Cell and their systems.**

This analysis is now available to anyone accessing our website, for their information and feedback. The information is presented using the MediaWiki tool, meaning that experts in any of the fields covered can apply for editing access and submit their own suggestions for improvement. To access the analysis, click the link on the Roads2HyCom home page [www.roads2hy.com](http://www.roads2hy.com).
